NEW SOUTH WALES

STATISTICAL REGISTER

FOR

1921-22.

H. A. SMITH, F.S.S.,
Government Statistician.

Published by Authority of
THE GOVERNMENT OF NEW SOUTH WALES.

SYDNEY: ALFRED JAMES KENT, GOVERNMENT PRINTER.

1923.
[7s. 6d.]

PREFACE.

THE thirteen sectional parts of this volume have already been issued separately, and are now presented collectively, accompanied by a General Index covering the subjects treated. Every care has been taken to keep the work free from errors, but if any have escaped detection it would be deemed a favour if their nature were indicated.

The figures should be read in conjunction with the "Official Year Book of New South Wales."

The Government Statistician wishes to express his thanks to the Commonwealth Statistician, to the responsible officers of the various State and Commonwealth Departments, and to others, who have kindly supplied all desired information, often at considerable trouble.

Bureau of Statistics,
Sydney, 10*th October,* 1923.

NOTE.—The figures quoted above represent the population of New South Wales within its present boundaries. Victoria was separated from New South Wales on the 1st July, 1851, and Queensland on the 10th December, 1859. The Federal Capital area of Yass-Canberra was transferred to the Commonwealth on 1st January, 1911.

Aborigines are included in the totals for the last six Censuses. The numbers included were 983 in 1871, 1,643 in 1881, 8,280 in 1891 4,287 in 1901, 2,012 (of whom 10 were in the Federal Capital area) in 1911, and 1,529 in 1921.

* The population of the Federal Capital area (997 males, 727 females, 1,724 persons) is excluded.

NOTE.—From the records of the 1861 Census, the ports at which ships were lying are not available, so that the shipping population of Sydney cannot be ascertained. The total shipping population was 1,910 (males 1,842, females 68), and two-thirds of that number have been assumed to have been in Sydney Harbour, and are included above.

Aborigines are included in the totals for the last six censuses.

*The Suburbs in 1921 comprised 40 Municipalities and Ku-ring-gai Shire.

Religious Instruction.—Under the Public Instruction Act (43 Vic. No. 23), which came into force on 1st May, 1880, it is provided that the instruction imparted at Public Schools must be absolutely unsectarian. "Secular instruction" is defined by the Act as including "general religious teaching as distinguished from dogmatical or polemical theology." Provision is made for authorised teachers of any denomination to give religious instruction at specified hours to the scholars belonging to their religion, and separate class rooms are provided generally for this purpose. **The total number of visits paid to State schools during 1921 by authorised teachers was 80,829, namely :—Church of England, 40,530; Roman Catholic, 1,696; Presbyterian, 12,684; Methodist, 17,314; other Denominations, 8,605.**

Subsidised Schools.—Subsidies are granted only in the case of children resident in thinly-populated country districts, so far removed from any Public School that attendance is impracticable. The conditions are that where a private teacher is engaged by two or more families in combination, or by a single family with not less than four children of school age, such teacher, if approved by the Minister, may be paid subsidy as follows :—

"In the Eastern portion of the State at the rate of £5 per pupil per annum on the average monthly attendance, such aid not to exceed £50 yearly, and in the Western portion of the State, £6 per pupil per annum, not exceeding the sum of £60 yearly. The Western portion of the State shall be that portion within which living allowances are granted to Officers under the Public Service Board."

Subsidy may be paid also to a parent as an aid towards the boarding of the children with friends or relatives in a township for the purpose of attending a Public School, at the rate of 6d. per day in the Eastern Division of the State, for each full day's attendance, up to a maximum of £5 per child, per annum, and at the rate of 7d. per day, up to a maximum of £6 per child, per annum, in the Western Division of the State.

* Reliable figures for years prior to 1913 are not available for these schools.

Superior Public Schools.—In addition to the above Superior Public (Day Continuation) Schools, established in 1912, there are other Public Schools entitled to the designation "Superior" by having at least 20 pupils eligible to join a fifth class. In these schools, the course of work in English History, Geography, Mathematics, Elementary Science, Drawing, and Manual Work, is that prescribed for the first and second year's course in the High School syllabus. The course of study does not include languages other than English, except under specified conditions. No statistics of this latter type of school are available.

The Teachers' College, Sydney, provides various courses preparing teachers for positions as rural school teachers, primary kindergarten, and secondary school assistant teachers. Courses range from twelve months—for rural school teachers—to three and four year courses, leading to graduation in Arts or Science. In addition to academic work at the College, students are given practical work in the Demonstration Schools at Blackfriars, North Newtown, and Darlington, and at selected supplementary practice schools. The number of volumes in the College Library is 19,330.

* After having graduated in Medicine.

Under its Charter, the University of Sydney may confer, after examination, degrees in Arts, Law, Medicine, Science, Engineering Dentistry, Veterinary Science, Agriculture, Economics, and Architecture; but not in Theology and Divinity. Graduates of Sydney University rank equally with graduates of British Universities.

Under the Act of 1884 women have all University privileges; and degrees may be granted to women in all branches of knowledge.

Faculties.—There are now ten Faculties: Arts, Law, Medicine, Science, Engineering, Dentistry, Veterinary Science, Agriculture, Economics, and Architecture.

Art Students.—Art students desirous of making studies of works in the Gallery may do so under certain regulations.

Wynne Art Prize.—Instituted in 1897, and consists of the interest on approximately £1,000, bequeathed by the late Richard Wynne. The prize, which is under the control of the Trustees of the National Art Gallery, is awarded annually to the Australian artist producing the best landscape painting of Australian Scenery in oils or water-colours, or the best production of figure sculpture executed by an Australian sculptor.

Archibald Prize.—Bequest in the estate of the late J. F. Archibald. An annual prize instituted in 1921 for the best portrait " Preferentially of some man or woman distinguished in Art, Letters, Science, or Politics, painted by any artist resident in Australasia." The value of the prize is approximately £400.

No. 21.—Annual and Total Loan Expenditure, 1842-1922.

NOTE.—The difference between the actual Loan Expenditure stated below and the Public Debt, as shown in No. 24 and following tables, is due to the fact that the outstanding debt represents the gross amount sold, while the expenditure is the net amount after deducting discount and expenses of flotation and allowing for debit balance of Loan Account.

No. 22.—Distribution of Total Loan Expenditure to 30th June, 1922.

NOTE.—The total loan expenditure has no relation to the public debt, although the amounts are approximately the same. The former is continually increasing according to the amount of loan moneys spent annually, while the public debt outstanding may be either reduced by the redemption of loans from revenue or increased by the issue of new loans. The total loan expenditure on works, services, &c., now exceeds the amount of public debt proper by £5,045,317.

No. 24.—Public Debt Proper—Amount Authorised, Sold, Redeemed, and Outstanding, 1900–1922.

NOTE.—The difference between the amounts outstanding at the close of each year does not, as a rule, represent the actual increase or decrease in the Debt. Repayments of loans are generally effected under the head of renewals, and in following out this practice, it is usually found necessary to float the redeeming loan some time before the due date of the maturing loan; hence the liability appears twice in the Debt Statement till the bonds or stocks are retired.

London Agents.—Operations connected with the issue and inscription of Stock are conducted by the Bank of England and the London and Westminster Bank. The former charges ¼ per cent. per £100 Stock on all loan issues, and £350 per million annually for the inscription and management of Stock including the payment of the half-yearly dividends, while the latter charges ¼ per cent. and £150 per million respectively for similar services.

Local Agents.—The Bank of New South Wales and the Commercial Banking Company of Sydney, Limited, transact all Government banking business. The former acts as Financial Agent for the State in Victoria, and also undertakes the payment of the half-yearly dividends on Local Debentures and Funded Stock. The Treasury, however, in local loan issues, directly conducts the operations connected with the issue of New South Wales Funded Stock and Treasury Bills.

No. 26.—Public Debt Proper, 30th June, 1922—Dates of Maturity and where Registered.

NOTE.—The latest due date has been given in this table, but in some cases the loans are redeemable earlier, subject to the Government giving notice to that effect, at periods ranging from three to twelve months.

The stock of the Public Debt may be transferred at any time from London to Sydney.

No. 18.—Imports Oversea, 1921-22.

(From 1st July, 1921, to 30th June, 1922.)

NOTE.—With the exception of United Kingdom, New Zealand, and in cases where one country only is concerned, only those countries are shown under each article where the value of import according to "Country of Origin" exceeds £500.

Value of Imports.—The value of goods imported from countries beyond the Commonwealth represents the amount on which Duty is payable or would be payable if the Duty were *ad valorem*. The value of goods subject to Duty is taken to be the fair market value in the principal markets of the country whence the same were exported, with an addition of 10 per cent. to such market value.

Quantities.—Generally, but not invariably, quantities have been shown in the ordinary trade unit. Where Imports have been declared in packages without an indication of the number, capacity, or weight of the articles imported, only the values have been inserted.

N.E.I. means "Not elsewhere included."

Import Duties.—Duties charged on Imports into New South Wales are collected under the Commonwealth of Australia Customs Act, 1901-1920; South African Preference (No. 17 of 1906) and subsequent amending resolutions; the Customs Tariff, 1921 (No. 25 of 1921).

Where reference has been made by number, in the footnote against any article in this table, it denotes the item appearing in the Customs Statistical classification which should be referred to for fuller details.

Total Imports, Oversea, 1921-1922, £43,321,478. Gross Duty received, £8,433,730.

No. 19.—Exports Oversea, 1921-22.

Note.—With the exception of the United Kingdom, New Zealand, and in cases where one country only is concerned, only these countries are shown under each article where the value of the export exceeded £250.

The difference between the value of Australian produce exported and the total export represents the value of produce of oversea origin, re-exported.

Value of Exports.—The value of goods exported is the value in the principal markets of the State in the ordinary commercial acceptation of the term.

Exports—Australian Produce.—Articles which were partly or entirely manufactured from imported materials are shown under this heading. The Commonwealth Customs Department does not now distinguish between the produce of New South Wales and that of other States, the whole being classified as "Australian."

Quantities.—Generally, though not invariably, quantities have been shown in the ordinary trade unit. Where exports were declared in packages, without an indication of the number, capacity, or weight of the articles exported, only the values have been inserted.

N.E.I.—Means "Not elsewhere included."

Ships' Stores.—Goods shipped as ships' stores on board oversea ships have not been included in exports. For ships' stores, see Table No. 21.

(—) Denotes decrease. * Includes Industrial Branch—not shown separately. † Exclusive of £51,689 for brokerage, promotion, and establishment expenses.

NOTE.—The management expenses of the societies established in recent years, as compared with the receipts, appear very high, but the initial expenses of new companies include cost of foundation, organisation, brokerage, and other items which will not be incurred again, and the expense ratios will therefore be materially reduced each year.

NOTE.—Mortgages of Registered British Vessels are under the Imperial Merchant Shipping Act of 1894. The mortgages are divided into two classes—one in which the ship is the sole security Principal Sum, and the other in which advances are made on the security of what is termed "the Account Current"—an Account Current being in most cases secured by land and other properties, in addition to shipping. The mortgage deed is generally executed for the full amount of the advance.

No. 55.—Rates of Wages in Various Industries, 31st December, 1922.

The Minimum Rates of Wages, as shown in the following tables, have been fixed by awards of the Court of Industrial Arbitration and of the Industrial Boards of New South Wales, or, in the case of a few industries, by awards or agreements under the Commonwealth Conciliation and Arbitration Acts. In relation to certain domestic occupations which do not come within the scope of any industrial award, average rates have been stated.

The rates relate to the Metropolitan district except in the following cases:—The mining and shipping industries, agricultural and pastoral pursuits, and several important works situated in country districts, for which special awards have been made, viz., the Portland Cement Works, the Lithgow Iron Works, the Newcastle Steel Works, and the Cockle Creek Smelting Works. The living wage in N.S.W. (excluding the county of Yancowinna) was declared on 8th October, 1922, at 78s. per week for men, and on 9th October, 1922, at 39s. 6d. per week for women.

Hours of Work.—The normal working week is forty-eight hours. Under an amendment of the Eight Hours Act, 1916, dated 29th December, 1920, a Special Court was constituted in February, 1921, and upon its recommendation the working hours in a number of industries were reduced by proclamation to forty-four, the provisions of the proclamation being binding in the same manner as an industrial award. Unless proclaimed to the contrary the weekly rate of wages remained unchanged, while the daily or hourly rate was increased so that each employee received the same wages for the forty-four hours worked as for the full time under the award. An amending Act dated 12th September, 1922, annulled the proclamations, but the hours so fixed may not be altered except by industrial award or agreement. A large number of alterations of awards and agreements have been made under the amending Act, and the 48-hour week has been re-established in the majority of industries.

The number of working hours per week in the different industries is shown in each case.

Legislative Council.—A maximum number of members of the Legislative Council is not fixed by the Constitution Act. In December, 1922, the number of members was eighty-one. Members receive no allowance for expenses, but travel free over the Government railways and tramways in the State. The President of the Legislative Council receives a salary of £925 per annum, and the Chairman of Committees £500 per annum.

Legislative Assembly.—New South Wales is divided into twenty-four electorates, of which nine in the Sydney Metropolitan Area and Newcastle are represented by five members each, and each of the others by three members. The Legislative Assembly continues for three years from the day of the return of the writs of election unless dissolved by the Governor. Each member (except when holding an office of profit under the Crown as a Minister, Speaker, or Chairman of Committees) is entitled to receive the sum of £600 per annum until he resigns or his seat is vacated, or, where Parliament has been dissolved or has expired by effluxion of time, until the day appointed for taking the poll for the next general election (Parliamentary Allowance and Salaries Act, 1922), by way of reimbursement for expenses incurred in the discharge of Parliamentary duties. Members travel free over the Government railways and tramways in the State, and are provided with official stamped envelopes for the free transmission of correspondence through the post. The Speaker of the Legislative Assembly receives a salary of £1,400 per annum, and the Chairman of Committees £840 per annum.

* Under the Fire Brigades Act of 1909, which came into operation on 1st January, 1910, the responsibilities of all the fire brigades in the State were transferred to the Board of Fire Commissioners of New South Wales. The revenue of the country fire brigades is derived from contributions from the Government, the municipal or shire councils interested in the respective fire districts, and the fire insurance companies insuring property within such districts, in the proportion of one-third each, and this sum represents practically the expenditure for the year.

† Outside Fire Brigade area. ‡ There were in addition 16 chimney fires and 52 false alarms.

Gross and Net Value of Estates.—The figures from the Probate Court and from the Stamp Duties Department (see Part "Public Finance") relating to transactions in the estates of deceased persons do not agree. The Court gives the gross value of the estates, and includes those estates which, after investigation, are found not to be subject to duty. The number of petitions is also swollen by probates and letters of administration on some estates being taken on a second time. The amount given by the Stamp Duties Department represents the net value of the estates.

Courts of Marine Inquiry.—In respect of British ships, these Courts hear and determine inquiries as to wrecks and other shipping casualties, or as to charges of incompetency or misconduct on the part of masters, mates, or engineers. Appeals and references under the Navigation Act (No 60, 1901) are also heard and determined. One or more District Court Judges constitute a Court of Marine Inquiry, and the Court is assisted by the assessors appointed under the said Act, but such assessors have power only to advise and not to adjudicate on any matter before the Court.

Appeals from Magistrates' Orders or Convictions.—The right to appeal to Quarter Sessions lies against all convictions or orders by Magistrates, excepting adjudications to imprisonment for failure to comply with an order for the payment of money, for the finding of sureties, for the entering into a recognizance, or for giving security, and orders for the payment of wages and convictions for breaches of dicipline under the Seamen's Act, 1898. The Appeal Court re-hears the cases, deciding questions of fact as well as of law.

Special Cases from Courts of Petty Sessions must be brought, in the first instance, before the Judge sitting in Public Chambers, who is vested with the authority and jurisdiction of the Supreme Court and who may refer such cases to the Full Court. Land Appeal Cases and cases under Local Government Act, 1906, are set down for argument before the Full Court only. Special Cases from Wardens' Courts are brought, in the first instance, before the Judge sitting in Public Chambers, unless both parties consent to place their case before the Full Court. The Judge may refer any such case to the Full Court.

Industrial Arbitration.—Industrial unions may be registered and incorporated under the Industrial Arbitration Act, 1912, and amendments. The Court of Industrial Arbitration determines industrial disputes, fixes minimum wages (up to £10 per week) and other conditions of employment upon application of employers or of unions; its awards are binding on all persons engaged in the industry concerned. Industrial Boards are constituted for various industries, but since 1916 their functions have been excercised by the Court, except in the Broken Hill district. The Industral Registrar deals with applications for registration of unions, for permits for the employment of outworkers, and for permits to infirm and slow workers to work for less than award rates. Breaches of awards and industrial agreements are dealt with by Industrial Magistrates. Appeal from decisions of Industrial Registrar or Magistrates lies to the Court of Industrial Arbitration, and from the Court constituted by one Judge to the Full Court of three Judges.

Conciliation.—Conditions of employment may be arranged by industrial agreements which, upon registration, are binding on the parties Conciliation committees may be appointed by the Minister for Labour, and the Special Commissioner for Conciliation may intervene in cases of industrial disputes.

The Board of Trade under the presidency of a Judge of the Court determines periodically the living wages for adult employees, which are the lowest which may be fixed by any award or agreement.

Commonwealth System of Conciliation and Arbitration.—The Commonwealth Court of Conciliation and Arbitration exercises jurisdiction in relation to industrial disputes extending beyond the limits of any one State, its awards are binding only on the parties to the disputes. Similar powers may be exercised by special tribunals appointed under the Industrial Peace Acts, 1920, for the prevention or settlement of industrial disputes. Registered Industrial agreements have the force of awards. On 30th June, 1922, there were 49 awards and 96 agreements in force in New South Wales. The Public Service Arbitrator determines conditions of employment in the Public Services of the Commonwealth; 21 determinations were in force in New South Wales as at 30th June, 1922.

Appeals.—The right of appeal may be exercised only in causes in which the amount claimed exceeds £10, and the appeal must be made either on points of law or in respect of the admission or rejection of evidence.

Causes tried by Jury.—In all actions where the amount claimed exceeds £20, the Judge may order, or the plaintiff or defendant may demand, that a Jury be summoned, by giving notice to the Registrar of the Court.

Number of District Courts.—At the end of the year 1921 there were 61 District Courts in the State, and 7 District Court Judges.

Garnishee Cases.—Upon the *ex parte* application of any creditor who has obtained a judgment, the Court may order that all debts due by a third person (the garnishee) to the defendant, except in the cases of wages or salary at £2 per week or under, shall be attached to meet the judgment debt; and, by a subsequent order, may direct the garnishee to pay as much of the amount owing by him as will be sufficient to satisfy the judgment debt. In cases where wages or salary exceed £2 per week, an order may be made only for the amount of wages or salary in excess of that amount. The total cases in 1921 numbered 1,719.

Interpleader Cases.—When a claim is made to goods held under a writ of execution by a person not party to the suit, the Court may decide the claim, upon application by the bailiff. There were 20 cases in 1921.

Examination of Judgment Debtors.—On the application of a judgment creditor, the Court may order the judgment debtor to be orally examined as to any debts due to him. The cases in 1921 numbered 589.

Street-trading Licenses.—The Neglected Children and Juvenile Offenders Act, 1905, which came into force during October, 1905, provides for the licensing of children engaged in street-trading. Badges are worn during the time of such trading. Only boys between 12 and 16 years may be licensed; the hours of trading are from 7 a.m. to 7 p.m. for boys under 14 years, and from 6 a.m. to 10 p.m. for boys over 14 years. Girls under 16 years of age are prohibited from trading. Boys of school age may not trade within school hours. Playing, singing, or performing for profit are permitted only in the case of boys over 14 years of age.

Theatre Licenses.—The Children's Protection Act, 1902, prevents children from taking part in public exhibitions or performances whereby the lives or limbs of such children are endangered. Where, however, it is shown that proper provision has been made for the health and kind treatment of children to be employed at premises licensed for public entertainments, children over 7 years of age may be granted licenses under restrictions and conditions. These licenses may be rescinded at any time.

Amount of Consideration.—Many mortgages do not state the amount lent under them, and many discharges do not disclose the amount received in consideration. The figures representing "Amount of Consideration" under both these heads are therefore considerably less than the amounts actually advanced or repaid.

Sums secured by Lien on Wool and by Mortgage of Sheep.—When any sum has been secured, both by a lien on the wool and by a mortgage of the sheep, the amount is included under both heads.

In 1921 the gross amount lent on liens was £719,543; but from this has to be deducted the sum of £121,392 secured both by lien on the wool and mortgage on the sheep, so that the net amount lent on lien was £598,151.

Mortgages on Wool and Crops discharged.—Liens on wool and on growing crops mature at the end of each season, and terminate without formal discharge. During 1921 there were 14 formal discharges of wool liens registered, representing £7,674.

* Information not supplied in all cases.

NOTE.—Many mortgages of Stock come to an end without formal discharge.

NOTE.—In addition to the inebriates shown in the returns, all of whom were dealt with under the provision of the Inebriates Act, 1912, 19 males and 8 females were admitted to Shaftesbury Institution as voluntary patients, and they paid for their maintenance while inmates of such institution. Of these, 2 males and 3 females were remaining on 31st December, 1921.

The Inebriates Act.—The Inebriates Act, 1912, provides for the special control and treatment of inebriates. Where a person has been convicted of an offence of which drunkenness is a component, or of assaulting women, cruelty to children, attempted suicide, or wilful damage to property, and it appears that drunkenness was a contributing cause of such offence, a Stipendiary or Police Magistrate may order that such offender be placed for a period of twelve months in a State Institution established by the Governor for the treatment of inebriates. On the order of a Judge, or of the Master-in-Lunacy, such period may be extended for further periods not exceeding twelve months each. Where a person has, after 9th September, 1909, been discharged from a State institution, or released on license, or discharged on recognizances, and within twelve months thereafter has been convicted of an offence of which drunkenness is a component, and has subsequently and during the said twelve months been charged with any offence, as herein mentioned, the Court may order him to be placed in a State Institution for a period not exceeding three years. Inmates are employed in remunerative and useful occupations.

Punishments inflicted on Prisoners for breaches of discipline.—During 1921, 1·3 per cent. of the prisoners received punishment, and the offences were generally of a trivial character. There have been no floggings, ironings, or other severe forms of punishment, and the dark cells were abolished years ago.

Gaol Libraries.—The Gaol Libraries contain 21,202 carefully-selected volumes for recreation and instruction of prisoners after working hours.

First Offenders.—Under the provisions of the Crimes Act of 1900, as regards any person who has not been convicted previously of an indictable offence in New South Wales or elsewhere (in so far as is known to the Court) and is convicted of a minor offence, and is sentenced upon such conviction to penal servitude or imprisonment, the Court may suspend the sentence upon the offender entering into a recognizance, with or without sureties, to be of good behaviour for the period of such sentence if for twelve months or over; or, if under twelve months then to be of good behaviour for the full period of twelve months.

Children Released after Conviction.—The Neglected Children and Juvenile Offenders Act, 1905, provides that where a child is summarily convicted of an offence entailing imprisonment, the Court may release the child on probation upon such conditions as may seem befitting.

LOCAL GOVERNMENT.

EXPLANATION.

The tables in this volume were compiled from returns supplied by the various local governing bodies.

The financial tables were summarised from statements prepared by the Councils according to the forms prescribed by the Regulations under the Local Government Act, 1906, which were continued under the 1919 Act. These regulations provide that the accounts must be Income and Expenditure Accounts, kept by double entry, and that each "Fund" must have a separate banking account. Thus there is shown for each General, Special, or Local Fund, and for each Trading Fund, of each area concerned, a "Revenue Account" (or Profit and Loss Account) giving the total expenditure chargeable for the period (whether paid or unpaid) and the total income for the same period (whether received or outstanding). A balance-sheet is also shown for each Fund with appropriate liabilities and assets. Only "realisable" assets are allowed to be included; so that the whole of the roads, bridges, drains, and other constructive works, which are often taken to account as assets elsewhere, are here excluded.

General Fund.—The Local Government Act prescribes that there must be a general fund in each local governing area (municipality or shire), to which must be paid the proceeds of all general and additional general rates, loans, moneys received by way of grant, endowment, &c., from the Government, and other income not required by law to be carried to other funds. The expenditure from the fund must be on administration, health, roads, and other public services.

Special Fund.—A Special Fund must be kept for each special rate levied, and for each work or service carried on by the Council in respect of which the special rate has been made, and the fund must be applied only for the purposes of such work or service. A special rate is levied only for a special object and applies to the whole area.

Local Fund.—A Local Fund must be kept for each local rate levied, with similar restrictions to those in the case of special funds. A local rate is levied for a local purpose, and applies only to that portion of the area which is benefited, and the expenditure of the local fund is restricted to work within, or for the sole benefit of, that portion of the area.

City of Sydney.—The financial transactions of the City of Sydney are shown separately from the other municipalities of the State, as the City Council conducts its affairs under the Sydney Corporation Acts, and not under the Local Government Act.

Roads, Streets, and other Public Places.—The particulars under these headings are only collected every three years, and the figures for 1921 will be found in the previous issue of the Statistical Register.

No. 5.—Municipalities—Valuations for year ended 31st December, 1921.

NOTE.—In this table the *Unimproved Capital Value* of Land is the amount which the fee-simple estate in such land is worth under such reasonable conditions as a *bona-fide* seller would require, assuming the actual improvements had not been made.

The *Improved Capital Value* is the amount which the fee-simple estate of the land is worth, with all improvements and buildings thereon.

The *Assessed Annual Value* is nine-tenths of the fair average rental of land with improvements thereon.

Thermometers.—Up till April, 1917, the thermometers were exposed in a shed 11 feet square, of which the sides were 5 feet 6 inches high, and enclosed to within about 30 inches of the ground with open lattice work. The roof was conical, rising to 13 feet above the ground, and was covered with louvres close enough to keep out rain. From April, 1917, the thermometers have been exposed in a standard Stevenson Screen.

Rain-gauge.—The rain-gauges are circular, 8 inches in diameter, and with rim 15 inches above ground. Two similar gauges, placed on the ground 6 feet apart, are used; the larger record is taken. The pluviometer results are from a gauge of the same diameter as the rain-gauge, 4 feet above ground.

No. 16.—Meteorological Conditions—New South Wales—1922.

The rainfall in New South Wales during the year 1922 was deficient over nearly the whole of the State and for the greater part of the year drought conditions prevailed in many of the inland districts. The lack of rain was most severe in the north-western quarter where the total falls were generally less than half the average; elsewhere the deficiency was not so great, but the total rainfall on the slopes and plains exceeded two-thirds of the average in only a few cases. Fortunately the rain in April exceeded the monthly average in the southern wheat districts, and again in July over nearly the whole wheat belt. Otherwise the falls were deficient until December when the crops had been harvested.

Only on the coastal division from Port Stephens north to Coff's Harbour, and from Wollongong south to Eden, did the rainfall appreciably exceed the average. Dry conditions persisted until June, 1923, and the season 1922–23 was most unfavourable for pastoralists and agriculturists alike.

An interesting feature of the year's weather, and one characteristic of drought conditions, was the occurrence of cyclonic disturbances. Each season of the year was marked by one or more such visitations, and heavy rain resulted in restricted areas on the Coast and in the North-eastern and South-eastern quarters of the State. In one or two instances floods were experienced in the Coastal rivers, and a heavy flood occurred on the Murrumbidgee between the 23rd and 28th July, following downpours on the Southern Highlands. Periods of southerly gales and rough seas on the Coast accompanied these storms, most of which were of tropical origin.

The precipitation attending these cyclonic disturbances, and the occasional tropical rainstorms, were responsible for great excesses over the normal rainfall in several months on those parts of the Coastal and Eastern Districts, where the total for the year approached or exceeded the annual average, while elsewhere the State suffered a considerable rain shortage.

During the course of the year most of the unusual happenings associated with dry conditions were experienced in some section or other of the State, such as dust-storms, heat waves, bush fires, hail storms, violent local tornadic squalls, frost, and some violent thunderstorms. Water spouts were also observed on several occasions in the vicinity of the Coast.

The highest temperature recorded in New South Wales during the year was 113 degrees at White Cliffs and Menindie on the 15th of February, and the lowest 3 degrees on the 13th July at Kiandra.

No. 16.—Meteorological Conditions—New South Wales—1922—*continued.*

The following is a *résumé* of the conditions prevailing in each month of the year:—

January.—The rain for the month was below the average, except on the Central and South Coast Districts and on parts of the Central and Southern Tablelands. The excess was considerable at most stations in these areas, being in some cases more than 6 inches. On the North Coast, Northern Tablelands, Western Slopes, and Central Plains the total falls were only about 50 or 60 per cent. of the normal. The Western Division fared worse, only a few stations receiving more than an inch, while at several places in the extreme North-west and West the month was rainless.

Of the many high temperatures recorded over inland areas, the extremes were 110 degrees at White Cliffs and Collarendabri, 109 degrees at White Cliffs, Deniliquin, and Bimbi.

February.—The total rain was above the average over the greater part of the Coastal areas north from Newcastle, where it was excessive. Dorrigo received nearly 30 inches, and Bellingen 24 inches. Along the Tablelands the rain generally reached the average, but over the Slopes, Plains, Riverina, and Western Division it was deficient, except at a few isolated places. Many districts received less than half an inch, while at a few place no rain was received.

The highest temperatures were 113 degrees each at White Cliffs and Menindie.

March.—Pronounced dryness marked the weather of this month. In the Western Division, Riverina, and Central Western Plains practically no rain fell.

The highest temperatures were 107 degrees at Bourke and 106 degrees at White Cliffs.

April.—Conditions were again of a dry character, and this was the third or fourth consecutive month of deficient rainfall. However, falls above the average were received on the wheat lands of the Riverina and the South-west Slopes and also in parts of the Central and Southern Tablelands and the far South-west.

The highest temperatures were 103 degrees each at Collarendabri, Bourke, and Coonamble.

May.—The month was dry generally, and the rainfall considerably below normal. Along the Southern border falls of about 1 inch were received, or about 50 per cent. of the average, but elsewhere inland the falls were all below half an inch, while at many places in the North-west no rain was recorded. In parts of the Central and North Coastal areas the monthly falls reached 4 and 5 inches, and in a few instances exceeded 8 inches.

The highest temperature was 93 degrees at Tibooburra, and the lowest 19 degrees each at Kiandra and Nimmitabel.

June.—The rainfall was deficient generally, and at only a few scattered places reached the normal amount for June. The shortages were inconsiderable on parts of the North-west Plains and in the far South-west, but generally speaking the deficiency was marked.

The highest temperature was 78 degrees at Casino, and the lowest 15 degrees at Nimmitabel and 16 degrees at Kiandra.

July.—In this month the rainfall considerably exceeded the normal over practically the whole of the Coastal areas and the Southern and Central Tablelands. The totals in those districts were nearly all over 8 inches, and exceeded 14 inches at a number of stations, while at Robertson 25 inches and at Araluen 27 inches were recorded. Along the Slopes and Northern Highlands the rain was also above the average. Most of the Riverina, the Central and North-west Plains, and far South-west, received falls about or slightly above normal. The only part of the State where rainfall was deficient was the far North-west.

The highest temperature was 75 degrees at Collarendabri, and the lowest 3 degrees at Kiandra.

August.—The rainfall was below the average over most of the State, except on the South Coast and at a few places in the Riverina and the Southern Tablelands. Precipitation was almost negligible in the Northern and North-western districts, and in the far North-west no rain was received.

The highest temperature was 81 degrees at Lismore, and the lowest 6 degrees at Kiandra. Frosts were much in evidence and snow occurred on parts of the Highlands.

September.—Bountiful rains fell on the Coastal Districts, where the totals registered ranged from 3 to 7 inches At several places on the North Coast falls exceeded 12 inches. Along the Slopes and Tablelands the amounts were about normal, except in Central parts, where the falls were less than an inch. On the North-west Plains, too, the falls were above the average, but elsewhere little or no rain occurred.

The highest temperature was 95 degrees at Tibooburra, and the lowest 18 degrees at Kosciusko.

October.—Except for some scattered parts of the State, where the totals exceeded the average, the rainfall was generally low, and dry conditions continued, especially in parts of Western and Central Divisions.

The highest temperature was 107 degrees at Menindie, and the lowest 18 degrees at Kiandra and Kosciusko.

November.—In the Western Division, Central West Plains, Riverina, Central Western Slopes, South-west Slopes, and the Central and Southern Tablelands little or no rain was recorded.

In the North-east corner the falls ranged up to 2 inches at several stations, while on the South Coast the falls were very light.

The highest temperature was 110 degrees at Bourke and Menindie, and the lowest 25 degrees at Nimmitabel and Kiandra.

December.—Due to the tropical rainstorms, chiefly in the early part of the month, heavy falls of rain occurred over the greater part of the inland district, especially in Northern parts. On the Coast, Central Tableland, and in the South-eastern Districts, however, a marked rain-shortage was experienced.

The highest temperatures in the State were 113 degrees at Menindie and White Cliffs, 112 degrees at Jerry's Plains, and 111 degrees at Tibooburra and Wilcannia.

At Sydney the maximum was 103·6 degrees on the 24th.

NOTE.—The results quoted in this table are from the earliest date available in each case. In table No. 17 the average annual rainfall, over a period of years, is given at a number of stations.

NOTE.—The great majority of females engaged in rural occupations are employed in conjunction with domestic duties, very few being returned as working for wages. Since 1919 a more careful collection has been made of the number of females engaged in rural pursuits, and it would appear that previously about 12,000 females were included each year (*e.g.*, wives of proprietors) who were engaged wholly in domestic duties. The number of females quoted in the above table for years prior to 1920 represents, therefore, the number as returned, less 12,000.

No. 77.—Prospecting Votes, 1913-22.

Prospecting Vote.—The sum of £7,000 was voted for prospecting for gold in 1878; and in subsequent years, at irregular intervals, further small sums were voted and expended. In accordance with a resolution of Parliament, an amount has been voted each year since 1887, during which year it was confined to searching for gold. In the succeeding year the conditions were amended so as to embrace all minerals.

* Partly natural and partly manufactured.

Note.—This table does not include iron made from scrap, valued at £1,416,030; nor lime and Portland cement, valued at £836,398 and £7,067,823, respectively. Emeralds and turquoises have been found in small quantities, but no information is obtainable as to their value.

These figures represent the value of minerals won during the year, and therefore differ from those in Tables No. 91 and 95, which show the value (at the mines, and before treatment) of the output from mines in operation during the year.

Surrenders, Exchanges, and Road Resumptions.—Surrenders and exchanges are effected under Sections 195, 196, 197 of the Crown Lands Consolidation Act, 1913, and Road Resumptions are treated under the Public Roads Act, 1902. As land is exchanged for land without any monetary consideration the extent of the area of Crown Lands is not thereby affected.

Resumptions and Purchases.—The total alienations represent the gross area, no allowance being made for the gifts of land an resumptions and direct purchases made from private owners on behalf of the various departments, for particulars of which see Table No. 45.

Land acquired by the State.—Land may be acquired by resumption, purchase, exchange, surrender, and by gift. Resumptions are made under the Public Works and the Lands for Public Purposes Acquisition and Local Government Acts. All resumptions, other than those made by the Minister of Public Instruction and the Commissioners for Railways, are treated by the Government Land Valuer. Resumptions under the Commonwealth Lands Acquisition Act, 1906-16, Acquisition (Defence) Act, 1918, and War Service Homes Act, 1918-20, are also included.

*NOTE.—The returns were collected from holdings over 1 acre in extent on which improvements had been effected, and upon which agricultural or pastoral activities were conducted; in that they covered all lands particulars of which serve a practical purpose. Prior to 1920 many holdings, nearly all from 1 to 5 acres in extent were included, which were not used for agricultural or pastoral purposes.

† Particulars of area cultivated will be found in Table 1 of Part Primary Production.

‡ The definition of Unimproved Capital Value and Improved Capital Value will be found on page 500, of Part X, relating to Local Government.

* For alienated area under crop, see previous Table. † Information not available.

NOTE.—From the year 1919-20 the returns were collected from holdings over one acre in extent on which improvements had been effected and upon which agricultural or pastoral activities were conducted; in that they covered all lands particulars of which serve a practical purpose. In previous years many holdings, nearly all from 1 to 5 acres in extent were included which were not used for agricultural or pastoral purposes.
